ARMATUREN ACCESSOIRES INTERIORS CULTURE PROJECTS

www.tapis.pl

A woman with dark hair, wearing a pink bikini top, is relaxing in a dark-colored hot tub. She has her eyes closed and a smile on her face, leaning back against a black cushion. Water jets are visible, creating white foam around her. The background is a lush green garden with trees and foliage.

When It Comes To Jets, We Believe More Is Better

No other spa gives you as many therapeutic jet configurations as a Sunray® Spa. With up to 100 jets on some models, you will have your choice of a full-body massage or concentrated neck and shoulder relief, as well as lounge and cool-down jets. And most jets are adjustable from their full 100% strength down to as little as 10%...allowing you to customize every aspect of the spa.

THERAPY FOR BODY AND SOUL

Ergonomically designed using therapeutic principles, each spa fits the contours of your body providing proper lumbar support and maximizing comfort while the jets melt away stress and muscle strain. Submersion in warm water causes blood vessels to dilate, increasing blood flow to body tissues. Warm water jets stimulate your muscles while you relax. Water buoyancy takes pressure off stressed joints. Control joint inflammation and pain associated with Arthritis. Relieve headaches caused by muscular tension. Recover quickly from the stress and strain of exercise.

Handcrafted, individually designed, precision engineered. Discover our extensive range of spas...

Enhanced Relaxation

Our Therapy Air is designed to enhance your massage experience. Air is circulated through the water giving a gentler massage. As an added feature, all Surrans Spas can be equipped with Therapy Air also come with a fully integrated aromatherapy system that introduces fragrance directly into the spa! The power of natural scent both refreshes and relaxes, complementing a totally therapeutic soak.

PERFECT MOMENTS

The Quality lifestyle It was a long, hard week and it feels so good to relax in a whirlpool tub with jets massaging those tired, aching muscles. It does more than just make you feel better. It also helps your body heal in a number of ways.

Many cultures have used hydrotherapy for centuries. Long ago, the Romans,

Greeks and Japanese recognized the benefits of using water for therapy to heal the body, mind and spirit. Now, in modern times, it is once again providing healing relief for many people.

In the 60s, whirlpool tubs became popular in California primarily for fun and romance.

But in the 80s, this began to change and people started using them for relaxation and family bonding.

The 90s brought greater growth as therapeutic benefits gained recognition. Now, the primary components of hydrotherapy, buoyancy, heat and massage provide many with healthy benefits on a regular basis.
